

City Streets

THE ISO
COLLECTIVE

PHOTO CHALLENGE

- Shop reflections** - try and capture both inside and outside
- Street food** - food stalls, markets, tables on the street
- Nature** - from the tiniest weed to a huge city park, capture the contrast between nature and the city streets
- Leading lines** - try to use leading lines from streets, fences and building to draw the eye into your frame
- Places of worship** - try unusual angles to capture their beauty
- Bright lights** - try to take photos in the dark that really showcase the city at night (you might need to put your camera on a flat surface to reduce camera shake)
- Public transport** - taxis, buses, trams, trains and even planes
- Get up high** - find the highest point you can to take some photos from and shot directly down
- Birds** - they are a staple of every city, try and capture their character
- Pigeon-eye view** - get your camera down to street level and shoot the action from a new viewpoint
- Street performers** - try to capture the reaction of the audience too
- Signage** - unusual signs, street art and graffiti, capture it all
